BETON STYLE

A person with long dark hair, wearing a dark blue short-sleeved button-down shirt, is holding a large, spherical terrarium above their head with both hands. The terrarium is a dense ball of green moss with several small, leafy green plants growing out of it. The background is a light-colored, textured wall with vertical lines. The text "LIME CONCRETE IS GREEN" is overlaid in large, white, bold, sans-serif capital letters across the center of the image, partially obscuring the person's face and the terrarium.

ABOUT US

LIME CONCRETE

If you like metropolitan sets, if you are seduced by the view of rough concrete surface textures, if you have a lust for high-tech, Lime Concrete is the right finishing for you.

Lime Concrete, enjoy urban.

BERICALCE

The De Toni family produces grassello since 1924. Ours, is a completely Italian family story.

In these years we learned all secrets of this extraordinary material and we can certainly say that to obtain a pure and excellent product there is no possible short cut:

only hard work, precision and time.

This is our way of working.

Bericalce's products come from the Venetian stucco tradition and the Veneto's experience, but they are under continuous study and improvement.

Our lime contains all the know-how and innovation necessary to offer high quality products suitable for modern life and surrounding needs.

Se ti piacciono le scenografie metropolitane, se ti seducono le texture scabre del cemento faccia-vista, se hai un desiderio sfrenato di high-tech,

Lime Concrete è la finitura giusta per te.

Lime Concrete, enjoy urban.

La famiglia De Toni produce grassello di calce dal 1924. La nostra è una storia tutta italiana. Nel corso degli anni abbiamo imparato tutti i segreti di questa materia eccezionale e possiamo affermare che per ottenere un prodotto puro ed eccellente non ci sono scorciatoie possibili: servono lavoro, rigore e tempo.

Noi lavoriamo così.

I prodotti Bericalce affondano le radici nella tradizione degli stucchi veneziani e dell'artigianato veneto ma sono continuamente oggetto di studio e miglioramenti. La nostra calce contiene tutta l'esperienza e tutta l'innovazione indispensabili per offrire prodotti qualitativamente superiori ed adatti alle attuali esigenze applicative, abitative ed ambientali.

LIME CONCRETE TONER COLORING AND WAX

TONER, DARK TONER and COLOR TONER

Special powder dye toners that, when added to the product "Lime Concrete", allow to obtain various shades of darker grey or a range of colors.

VELATURA MINERALE

Semitransparent decorative lime-based finishing, composed of Grassello, resins and special additives, ideal for the realization of decorative veilings of lime.

NATURAL BEE WAX

Natural bee's wax in an aqueous dispersion. Ideal for the protection of finishes like "Grassello Lucido", Venetian Stuccos, Marmorinos, Cocciopastos, Spatolatos.

PRODUCTS for LIME CONCRETE and MARMORINO FLOOR CYCLES

WATER-BASED

PURE VARNISH MONO MATT 05 / SATIN 30

Ready-to-use water-based polyurethane one-component matt or satin varnish with a high transparency, ideal as a protective finishing on indoor walls.

WATER-BASED

PURE VARNISH BICO MATT 05 / SATIN 30

Water-based polyurethane two-component matt or satin varnish with an excellent transparency, ideal as a protective finishing on indoor floors exposed to high degrees of humidity.

SOLVENT-BASED

SEAL VARNISH BICO MATT 05 / SATIN 30

Solvent-based acrylic two-component matt or satin varnish, excellent as protective finishing on indoor surfaces exposed to extremely high degrees of humidity.
